

First phase of Ras Laffan power plant complete

Qatar's Ras Girtas Power Co (RGPC) has announced the completion of the first phase of the Ras Laffan C power and water project, Gulf Times has reported. The completion of this phase raises the firm's ability to supply the national grid up to 1,833MW. The project is set to reach its design capacity of 2,730MW of power and 63MIGD of desalinated water, upon the completion of the remaining phases in 2011.
