

Kuwait Sets Deadline For Bidding For Zour North Plant Tender-Report

Tuesday, Nov 02, 2010

The deadline for submission of bids for Kuwait's Al Zour North water and power plant project falls immediately after Eid Al Adha's holiday, Kuwait-based Al Watan daily reports Tuesday citing an official.

The project is designed to produce 4,000 megawatts of electricity and 200,000 imperial gallons of water and its output will be sold to the Kuwaiti ministry of electricity and water under a 30-year agreement, the ministry's assistant undersecretary for planning and training Mishaan Al Otaibi said according to the paper.

The project will be implemented by a joint-stock company, and 50% of it will be offered for public subscription by Kuwaiti nationals, the daily cites Otaibi as saying.
